Dear Anupama,

You are expected to make a story on an unexpected visit you may conduct through a Jurassic Gymnosperm Forest. On this visit, you are supposed to communicate with the plants belonging to the order Gnetales. Those plants are telling you that they are the advanced gymnosperms in that forest with a large number of vegetative and reproductive characters, helping them to survive there. You are getting surprised by their disclosure. Write those events as a story and return to me. If your story is very nice, I am sure, you will be rewarded with a surprise gift.
