## Environmental Activities - Campus Bird Count

A study on the avian diversity of Fatima Mata National College campus was done as part of Campus Bird Count conducted by WWF in **February 21, 2022**. The birds spotted by participating volunteer students at the above sites formed the basis of the study. Students from Department of Zoology and Environmental Activities actively participated in the survey. The findings were recorded in e-bird. Students prepared a report on various birds in and around their home.

The screenshot shows a mobile application interface for e-bird.org. At the top, the location is identified as 'Fatima Mata National College (FMNC)' with a date of 'Feb 21, 2022, 1:34 PM' and a last update of 'Jul 26, 2023 - 10:45 AM'. Below this, a list of birds is shown with their respective counts: Greater Coucal (1), Black Kite (19), Brahminy Kite (11), Rose-ringed Parakeet (7), Black Drongo (6), and Common Myna (4). A summary section at the bottom provides additional details: 6 species reported, a 'Traveling' protocol, 3 observers, a 15-minute duration, and a distance of 0.27 miles. At the very bottom, there are three icons: 'Email', 'e-bird.org', and 'Edit'.
