Activity Report for Community Health Activity 2016-2017

FATIMA MATA NATIONAL COLLEGE KOLLAM

COMMUNITY HEALTH ACTIVITY (2016-2017)

1. Blood donation camps

(i) : Blood typing cum donation camp was held at the Department of Zoology on 9/12/16. Dr Reebu George M.D Pathologist, Bishop Benziger Hospital and a team of technicians conducted the camp. She delivered a talk on the relevance of blood donation for a healthy community. 42 student volunteers donated their blood from over 750 students screened by typing and physical examination.

(ii) : Blood donation camp was organized on 13/3/17 at Department of Zoology co partnered by Department of Commerce, NSS, and NCC volunteers. A team from IMA Kollam Unit lead by Dr. Anitha conducted the camp. 45 students donated their blood .

2. First Aid Awareness programme

On 16/12/16 and 10/2/17, Dr.Akhila Thomas delivered a power point presentation on basic first Aid and how to handle emergency situations. Real life case studies were discussed and analyzed section wise. .

3. Students of the community health club grouped themselves to undertake a community health survey in the months of January- February 2017. They surveyed selected Corporation wards and panchayats for assessing the prevalence of Cancer, Diabetis and Thyroid disorders in these areas. They briefed the surveyed population on various dimensions of healthy life style .They analysed their findings and prepared a project report and submitted a copy to the respective councilors and panchayat members. A blood donations volunteers list of that area was also prepared and submitted. The following areas were surveyed.

1. Punthalathazham Panchayat

2.Mundakkal East Ward , Kollam Corporation.

3. Kavanad, Kollam Corporation.

4. Naduvillakkara, Mayyanad Panchayat.

5. Vallathungal, Mayyanad Panchayat.

6. Perinad, Panchayath.

INTRODUCTION

The students of Fatima Mata National College in the Chemistry department has conducted a survey on diseases including diabetes, thyroid, cardiovascular diseases and the list of people who are willing to donate blood on behalf of the activities of community health club 2016 – 2017. We decided to conduct this survey in Mundakkal east ward on 28 December 2016. We visited 25 houses and collected the data of 100 members.

Report

We conducted a survey on 28 December 2016 about the diseases like diabetes, thyroid, cardio vascular diseases and we collected data's of 100 members and a list of 15 members who are willing for blood donation. We submitted this list to the ward councilor Mrs. Girija Sundaram and she supported us very well.

Every people cooperated with us and some people were unwilling to donate blood because of lack of awareness and about 70% are affected by anemia.

Most of the people suffering from diabetes second goes to thyroid and few of people are affected by heart diseases.

This survey was very fruitful, relevant and quite interesting. We have to interact with our neighbor ~~so~~^{so} as to realize about various types to diseases and to develop helping mentally and we can activate our thinking level for the welfare of our society.

INTRODUCTION

The students of Fatima Mata National College in the Mathematics department has conducted a survey on diseases including diabetes, thyroid, cardiovascular diseases and prepared the list of people who are willing to donate blood on behalf of the activities of community health club of the college. We decided to conduct this survey in Kavanad on 7 January 2017. We visited 25 houses and collected the data's of 100 members.

Report

We conducted a survey on 7 January 2017 about the diseases like diabetes, thyroid, cardio vascular diseases and we collected data's of 100 members and prepared the list of 15 members who are willing for blood donation. We submitted the blood donation list to the ward councilor Mrs. Rajalekshmi Chandran and she encouraged us very well.

Most of the people were suffering from diabetes second goes to thyroid and few people are affected by heart diseases.

This survey was very faithful, relevant and quite interesting. We had a very good interaction with our neighbors and made them aware of blood donation and about various types of diseases. They were very co-operative to us.

ACKNOWLEDGEMENT

We owe a deep sense of gratitude to Dr Akhila Thomas, Associate Professor of Zoology Department and in charge of community health club for her help, guidance and advice

We are highly indebted to Mrs. Sheela Kumari, Ward Member of ward no 7, Naduvilakkara, Mayyanadu Panchayath , for her immense help and guidance during the survey.

Above all we must thank to the people who have willingly cooperated with us during this survey.

INTRODUCTION

Today's lifestyle is the major reason for the emergence of common diseases like diabetes, blood pressure, cholesterol etc. Apart from genetic factor, lack of exercise, stress, food habits and social and environmental factors are the major factors that causes these diseases.

The students of II DC Psychology Department of Fatima Mata National College has conducted a survey on behalf of Community Health Club, on the topic "Common Diseases" like diabetes, blood pressure, cholesterol, thyroid and also on the willingness of individuals to donate their blood. The survey was conducted during the first week of January 2017 by a group of five members in ward no: 7, Naduvilakkara, Mayyanadu Panchayath.

REPORT

A survey on common diseases like diabetes, cholesterol, blood pressure etc was conducted on behalf of community health club of Fatima Mata National College by the students of Department of Psychology on first week of January on 100 people in the 7th ward, Naduvilakkara, Mayyanadu Panchayath.

As per the survey it is evident that most of the people possess common disease like diabetes, cholesterol, blood pressure and thyroid. People within the age group of 35 -65 are found to have these diseases. It was found that people above the age of 65 rarely have any of these health problems. Most of the people admitted that one disease lead to an array illness. No other major health issues or illness were found.

As per the survey 40% of people have these diseases out of which 22% have diabetes 18% have BP, 18% have cholesterol and 9% have thyroid.

Report

We conduct a survey on 17.02.2017 about the disease like diabetics, cholesterol, blood pressure and we conducted data of 100 members and list of 15 members. Who are willing for blood donation. We submit the this list to the ward councilor Mr: Priyadarsanan. V. S and he supported as very well.

Every people co-operated withus and same people were unwilling to donate blood because of lack of warness and about 70% are affected by Anemia.

Most of people suffering from Diabetics. Second goes to blood pressure and few of people are affected by cholesterol.

The Survey was very leithful and element and quite interesting. We have to interact with our neighbout go as to release about various type of disease and to develop helping mentality and we can activate our thinking level for welfare of our society.
