TO WHOM IT MAY CONCERN

Hereby I wish to confirm that I have, since 2016, an active scientific collaboration with Dr. Sheena Mary Y, Assistant Professor at the Department of Physics at the Autonomous Fatima Mata National College, Kollam, Kerala, India.

During this collaboration we have over the years jointly published forty papers. To each and every one of these papers Dr. Sheena Mary Y made significant, substantial and scientifically innovating contributions.

Kind regards,

Prof. Em. Christian Van Alsenoy
