Talk on “Dental Health & Oral Hygiene”

Dental hygiene or oral hygiene is the process of maintaining proper dental care to avoid oral health problems. It is recommended that you see your dentist and dental hygienist at least twice a year however the dental care that you provide on your own in-house is an integral part of maintaining good oral health. Neglecting to adhere to proper oral hygiene guidelines can lead to further oral health complications that are much easier to prevent. Improper dental hygiene results in increased accumulation of plaque and debris around the mouth, teeth, and gums that can lead to gum disease. Gum disease, or periodontal disease is an infection of the tissues and bones that surround and support the teeth. Gum disease is a direct result of poor dental hygiene and is preventable. Gum disease can also lead to halitosis, gingivitis, tooth decay etc.

The talk was delivered by Dr. Jeslet John (MDS), Dental Surgeon, Govt. Hospital, Kollam

The topic of lecture – Gum disease, oral ulcer, oral cancer, treatment of injured tooth & brushing technique.

Seminar on

Dowry Prohibition ACT – 1961

This Act prohibits the practice of giving or taking of dowry. This law also punishes demanding and advertising dowry. The dowry system is thought to put great financial burden on the bride's family. In some cases, the dowry system leads to crime against women, ranging from emotional abuse and injury to even deaths. The payment of dowry has long been prohibited under specific Indian laws including the Dowry Prohibition Act, 1961 and subsequently by Sections 304B and 498A of the Indian Penal Code.

An informative talk was organized in the College auditorium on

21-11 2017 as per direction of the Dowry Prohibition Officer, Social Justice Department. 200 students participated in the programme.
