

FATIMA MATA NATIONAL COLLEGE

AUTONOMOUS

(Reaccredited with 'A' Grade by NAAC)

Affiliated to University of Kerala

7.2.1 Fatima Green Band

IQAC INTERNAL QUALITY ASSURANCE CELL

FATIMA GREEN BAND

We earnestly believe Higher Education Centres can steer a generation towards sustainable development. Sustainable higher education includes campus greening initiatives such as recycling, energy and water savings, sustainable infrastructure, sustainable procurement, carbon and ecological footprinting etc. We aim to use less resources year on year and consider alternative practices to minimise the damage we do to the environment.

Here at FMNC we aim to lead by example and we intend to practice what we preach. With this in mind a group of student volunteers were constituted under the FATIMA GREEN BAND, to strengthen the Green Academics and Green Activities, and they are supposed to act as the ambassadors of FATIMA GREEN INITIATIVES.

We strive to be environment friendly in our endeavours and monitor the activities inside the campus to ensure they meet the expectations of a green campus. We encourage our staff and students to be 100% committed to protecting the environment.

The concept of Green Thoughts and Green Activities is actively translated into the students mind. The framing and presentation of FATIMA GREEN BAND, an active student involvement programme, ensure their wholehearted participation in enriching the Green Environment and Green Thoughts in the campus. This group is now projected as the torch bearers in making FATIMA a clean and green campus in appearance and thoughts.
