## Feedback from Faculty on Curriculum Design and Development

As teachers play a pivotal role in the curriculum design and act as a catalyst for change in the education system, it is important to hold a critical survey among teachers about the persons involved in and the process of the design and development of the syllabi. A structured questionnaire was prepared for the purpose of eliciting the choice by rating as Strongly Agree, Agree, Neutral, Disagree and Strongly Disagree. Printed questionnaires were distributed and ninety nine filled in questionnaires were received. The following responses were received.

### Question 1

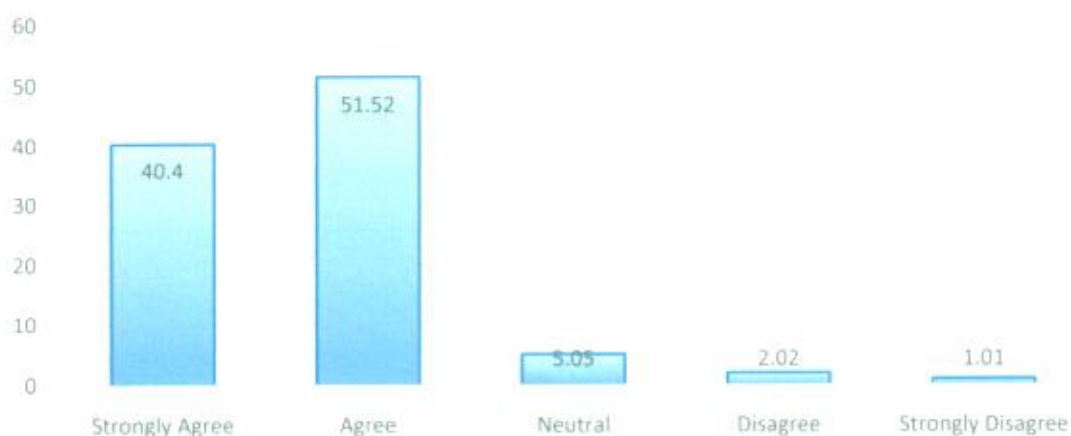

The college has a very effective and well organized system for curriculum design and development.

### Response

Strongly Agree	Agree	Neutral	Disagree	Strongly Disagree	Total

**Question No 6 Representation from industry in the Academic Council is helpful in designing and improving the curriculum**

Strongly Agree	Agree	Neutral	Disagree	Strongly Disagree	Total
55	42	1	1	0	99

**Percentage distribution :**

**Conclusion :**

The higher percentage of responses to positive aspects of 'Agreement' from faculty members is a testimony to the success achieved by college in its stride towards academic excellence.

However continued and sustained efforts are to be taken for improving the quality of education (both in the content and in the process) in keeping with the changing demands, taking into account the feedback received.

The reasons behind the neutral response and disagreement are to be looked into and necessary steps are to be taken for improvement.
