Feedback Analysis

The first three questions pertain to the faculty assessment and the effectiveness of the teaching process. The relatively high responses (84%, 96% and 85%) in the Strongly Agree and Agree levels indicate the positive feedback in this regard. Even though the percentage of responses in the negative side is very low, it is recommended that the reasons behind this may be identified, to sort out this issue positively.

The next four questions are on the learning outcomes and curricular activities. Here again a strong majority of students have positive responses (88%, 99%, 97% and 92%), which indicate that the curricular changes brought about in the last revision has made a significant change. However, in the light of some negative feedback in this regard, it is recommended that the teaching departments may identify the student dissatisfaction and take remedial measures necessary.

The last three questions focus on the students' satisfaction level about the programmes. The significant positive responses (94%, 93% and 94%) in this level indicate the level of success of the programmes.

Conclusion

The report is submitted to the IQAC, Heads of the Departments, Deans of Faculties, Chairmen of the BOS, and the College Council.
