

DEPARTMENT OF CHEMISTRY

FATIMA MATA NATIONAL COLLEGE (AUTONOMOUS), KOLLAM

Minutes of the Board of Studies Meeting of Chemistry held on 31st July 2021

. The meeting was conducted in Google meet at 11.00 am.

Dr Biju Mathew welcomed the members. The minutes and action taken report was presented by Dr Apsara A P, Head of the Department. The council approved the same.

The following members were present.

Outside Parent University

1. Dr Sreedharan Prathapan,
School of Applied Chemistry, CUSAT

Industrial sector

Dr Anoop Krishnan, Centre for Earth Studies (CESS)

University Nominee

1. Prof T S Anirudhan, Professor, Department of Chemistry, University of Kerala, Kariavattom, Thiruvananthapuram

Department of Chemistry, Fatima Mata National College

1. Dr Suma N
2. Dr Apsara A P
3. Dr Sarau Devi A
4. Dr Biju Mathew
5. Dr Manohar D Mullassery
6. Dr Noeline B Fernandez
7. Dr Mary Nancy T E
8. Mrs. Mini V
9. Dr Shibu Joseph S T
10. Mrs. Sherin Mol C B

Agenda of the meeting

Project and Internship of PG students

New Courses

Syllabus Revision

Suggestions in the meeting

- **Project and internship** during vacation (April-May) without affecting course work
- To propose to academic council that in addition to internship, one month project is also required.
- **New Courses**
If Forensic Science, discuss with the Police Department for support similar to the support given to Cochin University.

It is uncertain about the job opportunities to Forensic Science.

Specialization restricts opportunities. After two or three batches saturation results.

The Department suggested “Analytical Chemistry” as a new course.

The external members suggested that “Analytical Chemistry” is a dilute version of Chemistry.

- **Syllabus Revision**
Quantification of outcomes by introducing credit banking, mapping of CO, PSO and PO
In the current syllabus we have essentials of Chemistry as Open Course.
To introduce new open course get feedback from other Departments.
The proposed new open course is “Fundamentals of Chemistry & Its Applications to Everyday Life”.

At present the elective course is “Biochemistry”. To introduce new elective course more discussion is needed.

Revision of PG syllabus – Remove or retain repetition in module of UG course, department can decide.

Mrs Sherin Mol CB proposed the vote of thanks.

The meeting came to an end at 12.15 pm
